Help prevent the spread of respiratory diseases like the flu and COVID-19

Wash your hands often with soap and warm water, or use an alcohol-based gel.

Avoid touching your eyes, nose and mouth.

Clean things that are frequently touched like doorknobs and countertops with cleaning spray or wipes.

Cover your mouth when you cough or sneeze. Use a tissue or your inner elbow, not your hands.

Stay home if you are sick and avoid close contact with others.

Think ahead about how to take care of yourself and your loved one if the virus starts spreading in the community.
